

## *Bone Talk* by Candy Gourlay

### Characters:

Samkad: The protagonist of the story. Samkad is desperate to become a man and to slay a Mangili.

Father: Samkad's father. The tribe's best warrior and Samkad's only parent after his mother dies in childbirth.

Little Luki: Samkad's closest friend and rival. Luki is a fierce girl who worries about losing her friendship with Samkad when he becomes man.

The Ancients: They decide what is going to happen in the village and when a child becomes a man.

Tambul: A friend of Samkad's and a fierce warrior. Watch out for how this relationship changes the way Samkad sees the Americans.

The Mangili: The tribe's sworn enemy. Beheading a Mangili is a key part of becoming a man.

Chuka: Samkad's faithful dog. Chuka is used to explore the theme of **loyalty** in the novel.

Corporal Quinlan: An American soldier. The novel's main antagonist. He is much more aggressive than Mister Williams who appears to just be studying the tribe.

Context: The novel is set in 1899 and centres on the Philippine American War.

The Philippines had been a Spanish colony since 1571. In 1896 the Filipinos started plotting a rebellion.

The Americans helped the Filipinos fight the Spanish leading to the Filipinos announcing independence from Spain in 1898.

Spain agrees to give the Philippines to America for \$20 million dollars. The American President, William McKinley, states that the Americans have come 'not as invaders or conquerors, but as friends, to protect the natives.' He calls this process 'Benevolent Assimilation'. When Filipinos resist he launches a full scale invasion.

### Key Themes and Ideas:

First Contact Narrative: A narrative focused on the first meeting between two cultures.

Colonialism: When one country takes control of another and exploits it economically.

Symbolism: The use of images to represent different ideas.

Exploitation: Profiting from the unfair treatment of others.
