Ref: 021-022-0098  
17<sup>th</sup> February 2022

Dear Parents/Carers,

### Re: Period 7 programme Year 11 March Trial Examinations

Thank you for your support with the Year 11 Trial Examinations this year so far. The positive attitude and maturity shown by many of our students has been a real credit to the school. This coming half term is crucial in terms of consolidating our students' learning and preparing Year 11 for their summer examinations. We are therefore continuing Period 7 revision after half term, alongside examinations in French, Maths and Science.

Each student will be invited to attend intervention and revision sessions at different times throughout the school week according to examinations that are on, as well as **targeted** period 7 sessions for all other subjects.

All revision sessions where not allocated as invite only, will be **compulsory** and registers will be taken to monitor attendance. Therefore, please support your child to attend these sessions, whether they take place during school holidays, before school, during lunchtime and/or during Citizenship lessons. All learning time is equally important.

With regards recent staff predictions, it is clear more work is needed to support Maths results in line with target grades, as Maths have not received any gained time or advanced information for exams like most other subjects with national specification changes. In order to do this we are creating time within the timetable after half term to allow for two hour blocks of learning. This time will come from Options subjects that can afford the time. For example History have lost one full unit of work and have finished the course, so can afford 4 hours a fortnight and not 5, this hour will be given to Maths, who have lost no time. Students will be informed of these slots upon their return after half term, but now is the time to act.

Parents and carers play a very important role in supporting their child with revision and helping students to perform well in their exams. We hope that this revision programme will assist you to support your son or daughter.

Yours sincerely

Sean Castle

Deputy Head Teacher
